To the FCC: This is to tell you that I strongly disagree with the NAB's petition 04-160. I love listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides great variety and quality that are not available on regular stations that are over-laden with commercials and DJ talk. That's why I'm willing to pay for these services. Therefore, it should not be up to the National Association of Broadcasters to dictate what I am permitted to pay to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming that I demand and deserve. Thank you.
